Education

University School of Information, Communication and Technology — New Delhi, India
Bachelor of Technology – Computer Science Engineering — *2023 – 2027*

Work Experience

CoinFerenceX
Web Developer Intern — *12 Aug 2026 – 12 Oct 2026*

- Managed and maintained the company website end-to-end as the sole developer responsible for day-to-day upkeep.
- Led a full website upgrade covering design, structure, and technical improvements, while troubleshooting and resolving issues.
- Handled content updates, functionality checks, and performance monitoring, coordinating with senior team members for technical and strategic guidance.

Hotel Kamala Inn Grand — Link
Freelance Web Developer — *Jul 2026*

- Built a production-ready hotel booking website and admin dashboard covering reservations, room inventory, guest inquiries, and role-based staff administration.
- Developed responsive front-end interfaces using React, TypeScript, Supabase Authentication, and PostgreSQL for secure and scalable data management.
- Collaborated directly with the client throughout the development lifecycle, gathering requirements, iterating on feedback, and delivering production-ready features.

URLyte — Link
Full Stack Developer — *Apr 2026 – Jun 2026*

- Designed reusable and responsive React.js components, improving UI consistency and reducing development effort across multiple product screens.
- Built and integrated REST APIs connecting frontend applications with backend services to enable reliable end-to-end data flow.
- Worked with PostgreSQL databases, writing optimized SQL queries and improving application performance.
- Implemented JWT authentication, role-based access control (RBAC), code reviews, testing, and bug fixes to maintain application stability.

Technical Skills

Languages: C++, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: PostgreSQL, MySQL
Developer Tools: Git, GitHub, Postman, Figma

Projects

UniTrack – AI Powered Attendance Tracking PWA — Live

- Built a responsive Progressive Web App with 13+ mobile and desktop screens for attendance management, emphasizing intuitive navigation, responsive layouts, optimistic UI updates, and accessible user experience.
- Implemented authentication, attendance workflows, reusable UI components, and AI-assisted features using modern full-stack technologies.

Stack: Next.js, React, TypeScript, Supabase, PostgreSQL, Tailwind CSS, Google Gemini

TripMate – Travel Companion Platform — Live

- Built a full-stack platform where hosts post trips and travelers request to join, with Google sign-in, approval flows, reviews and public profiles.
- Built real-time group and 1:1 chat with Socket.IO and JWT-authenticated rooms, plus in-app and email notifications; added trust and safety features including phone-OTP verification, user blocking, abuse reporting, and women-only trips.
- Secured the API with Helmet, rate limiting, and upload file-type checks; wrote authorization integration tests and deployed on Vercel, Render, and Neon Postgres.

Stack: React 19, TypeScript, Tailwind CSS, Node.js, Express, Socket.IO, Prisma, PostgreSQL (Neon), Firebase Auth

Achievements

- Participated in an offline Hackathon at Maharaja Surajmal Institute of Technology (MSIT), New Delhi. — Unstop

Leadership Experience

Software Development Cell (SDC) — USICT
Member

- Contributed to peer-led technical initiatives and software development activities.

ACM Student Chapter — USICT
Executive Member

- Organized technical events, workshops, and community engagement initiatives.

Anugoonj 2025 — USICT
Social Media Lead

- Led digital campaigns and content strategy, helping scale event reach to 10,000+ followers.
